General terms

Our **Software2 Packaging Service** apps are packaged with Cloudpaging Studio for deployment to Microsoft Windows 10, or Windows Server 2016 and above.

All pricing listed is in **Software2 Packaging Credits**, and is the cost per appset (i.e. per app version), unless otherwise shown. Apps are packaged with our default configuration as standard, according to Software2 Packaging Service conventions (provided as a separate document). Bespoke configurations can be provided for additional credits.

Core apps

As an AppsAnywhere customer, you'll automatically get access to our Packaging Service along with all our pre-packaged 'Core apps', ready to deploy:

7Zip	Adobe Reader	Atom	Audacity
BEAST	Blender	BlueJ	ColorVeil
Foxit PhantomPDF	Foxit Reader	Evernote	FigTree
FileZilla	Firefox	Freemind	G*Power
GeoGebra	Gephi	Ghostsript	GIMP
Git	Google Earth Pro	Handbrake	Hot Potatoes
ImageJ	Inkscape	IrfanView	Jalview
JASP	Java JRE	Java SE JDK	jEdit
LTSpice	Makehuman	Notepad++	Paint.net
PC-BASIC	PuTTY	Python	QGIS
R	RStudio	Ruby	Treesize
Turningpoint	WinVICE	Visual Studio Code	VLC Media Player
WinPython	WinSCP	WinVICE	

We provide new versions of these Core apps every 3-6 months. You can also request updates in between those times, and we'll aim to provide one as soon as possible.

Free open-source software (FOSS): 10 FOSS packages are included with your AppsAnywhere subscription throughout the year, at no additional cost. Any FOSS packages we create are shared with all subscribers so that the wider Software2 customer community can all benefit!

Packaging on-demand

★ New for 2021!

For all the other apps you want us to package, you can now buy Software2 Packaging Credits on-demand, and use them for what you need, when you need it.

Packaging Credits

OVERVIEW

Credits can be purchased anytime and can be used towards our [App bundles](#) or for apps from our [App menu](#). They can also be used for bespoke configurations or requests for apps that aren't on our menu.

	GBP (£)	USD (\$)	EUR (€)
1 Credit	£1.00	\$1.50	€1.00

CREDIT PACKS

Buy Packaging Credits in bulk and save!

Credits	GBP (£)	USD (\$)	EUR (€)	Saving
6,000	£5,700	\$8,550	€5,700	5%
12,000	£10,800	\$16,200	€10,800	10%
24,000	£20,400	\$30,600	€20,400	15%

App bundles

We're pleased to offer two bundles of popular Higher Ed apps:

- the [Adobe CC Suite](#)
- the [Autodesk products](#).

All app bundles cost 3,000 credits each.

ADOBE CC BUNDLE

If you're using Adobe's Named User Licensing or Shared Device Licensing, you can get all the following apps as part of our Adobe CC bundle:

Adobe Acrobat Pro DC	Adobe After Effects CC	Adobe Animate CC
Adobe Audition CC	Adobe Bridge CC	Adobe Captivate
Adobe Character Animator CC	Adobe Dimension	Adobe Dreamweaver CC
Adobe Illustrator CC	Adobe InCopy CC	Adobe InDesign CC
Adobe Lightroom CC	Adobe Media Encoder	Adobe Photoshop CC
Adobe Prelude CC	Adobe Premiere Pro CC	Adobe Rush CC
Creative Cloud Desktop CC*		

Our Adobe CC appsets are updated in both February and August. Customers taking this bundle will receive one existing set of apps, and one updated set (6 months later).

*Creative Cloud Desktop CC contains the license and common service components, so must be launched first as a dependency for all other apps.

AUTODESK BUNDLE

Our Autodesk bundle contains a selection of the most popular Autodesk apps:

AutoCAD Electrical	AutoCAD Mechanical	Autodesk 3DSMax
Autodesk AutoCAD	Autodesk Civil 3D	Autodesk Fusion 360
Autodesk Inventor	Autodesk Maya	Autodesk Motionbuilder
Autodesk Mudbox	Autodesk Navisworks Manage	Autodesk ReCap Pro
Autodesk Revit	Autodesk Master License**	

If you need any additional Autodesk apps, please let us know and we can provide a credit cost to package these apps together.

**Autodesk Master License contains the license and common service components, so must be launched first as a dependency for all other Autodesk apps.

App menu

Our menu of apps offers the best value, with discounts available at quieter times of the year. We've grouped apps into bands, with the credit cost as follows:

Band	Off-Peak	Peak (July to September)
A	185 Credits	250 Credits
B	375 Credits	500 Credits
C	750 Credits	1,000 Credits

The cost of an appset is confirmed as soon as the required information to package the app has been provided, i.e., before packaging work commences.

See '[Media and Licensing](#)' for more information.

Please note: New versions of apps and updates to apps are not included; costs are per package. That means we can offer the best value because you only need to pay for new versions if you need them.

APP MENU BANDS (FOR 2021)

Apps are grouped into the following bands:

App Name	Vendor	License Type	Band
@Risk	Palisade	Server	B

Tableau Desktop	Tableau Software	Local	A
Unity (for Education)	Unity Technologies	Local	B
Unreal Engine	Epic Games	Online (log in)	B
Visual Studio Community Edition	Microsoft	No License Required	A

Service level agreement

Access to Software2 Packaging Services is via our online Packaging Portal. All our Core apps are available for immediate download in STP format, ready-to-deploy from AppsAnywhere with Cloudpaging.

Requests for packages will be verified within 2 days and the packaged app will be provided within 1-4 weeks of a verified request. Should you need to mark your request as urgent, we'll make all reasonable efforts to deliver a package in the shortest possible timeframe.

Bespoke packaging

All apps listed in this document are packaged with a default configuration, according to Software2 Packaging Service conventions.

We can also customize any of the apps listed to meet your exact requirements for an additional credit cost. App bandings and any additional credit costs are always confirmed before work commences.

If the app you need is not listed in this document, you can still submit a request via our Packaging Portal and a price will be provided on request, no obligation.

Media and licensing

We don't sell you the individual software licenses; we simply provide a packaging service. When required, it's the customer's responsibility to provide the installation media and a valid license to be included with each appset.

If access to a license server is required to install or configure an app, this must be provided by the customer. License servers must be contactable over the internet, or via a customer-provided VPN connection. If that's not possible, please contact us to discuss alternative arrangements.

Please note discounts can only be applied if the media and license information provided can be used to successfully install and license the app within the discount period.

Deliverables

Our apps are packaged with Cloudpaging Studio for deployment to Microsoft Windows 10 or Windows Server 2016 and above.

Once packaged, we provide appsets in STP format, ready-to-deploy through AppsAnywhere with Cloudpaging. A recipe and project file (STW) are also provided with each appset, should you wish to make local changes.

Please note an additional cost may apply if you need us to (re)package an app to work in a specific Windows environment.

UAT and warranty

Once we deliver your appset, we know you'll want to perform some user acceptance testing, so we include a 90-day warranty as standard. In case of any issues with the appset, simply raise a ticket and we'll resolve any defects.

Please note changes to app configuration (addition of plug-ins, updates etc.) will carry an additional credit cost.

Credits

Credits expire 12 months from the date of purchase. Additional Credits can be bought at any time throughout the year, with a minimum purchase of 3,000 Credits.

You can use Software2 Packaging Credits for: apps on our packaging menu, our app bundles, or for apps packaged by Software2 with bespoke configuration. Credits can also be used for apps that aren't in our app menu; in this case contact us and we'll provide a quote for the number of Credits needed.
